Dear guest,

Pairing wine with food enhances your dining experience

The right wine with the right food is a simple statement but difficult to define

In reality, the right wine is the one that you really enjoy drinking

The following are suggestions to help you match food by simply using the generally accepted rule of "like with like"

"sweet food with sweet wine"

"sour food with acidic wines"

"bitter food with bitter wines"

"salty food with acidic wines"

"white meat with white wine"

"red meat with red wine"

it is not easy to know which wines are acidic or retain bitterness, so experience is the answer
